

Tolani Motwane Institute of Management Studies

Guest Lectures and Industry Interaction Policy

The Institute is dedicated to bridge the gap between academia and industry, and our Guest Lectures and Industry Interaction Policy reflects this commitment. This policy aims to provide our students with invaluable insights, networking opportunities, and practical knowledge through an array of guest sessions, workshops, and industry interactions, ensuring they are well-prepared for the challenges of the VUCA world.

Objectives:

The Guest Lectures and Industry Interaction Policy of the institute is established to achieve the following key objectives:

Real-World Insights: Provide students with practical insights into industry trends, challenges, and best practices from accomplished professionals.

Networking Opportunities: Foster connections between students, faculty, and industry experts for potential collaborations and mentorship.

Enhanced Curriculum: Enrich the academic experience by supplementing theoretical knowledge with real-world case studies, experiences, and content that is not covered in the syllabus.

Scope:

The Guest Lectures and Industry Interaction Policy encompasses a wide range of activities to bridge the gap between academia and industry. This includes:

Guest Lectures: Inviting industry experts, entrepreneurs, and thought leaders to deliver lectures on topics relevant to management education.

Workshops and Seminars: Organizing interactive sessions to delve into specific industry topics, skill development, and emerging trends.

Panel Discussions: Hosting discussions with a panel of experts to explore diverse perspectives on contemporary business challenges.

Institutional Support:

The institute is committed to provide support to facilitate guest lectures and industry interactions:

Speaker Selection: Faculty member / Head - Corporate Relation Team in coordination with the director, to identify and invite speakers whose expertise aligns with the institute's focus areas and student interests.

Logistical Support: Provide logistical assistance, including venue arrangements, technical equipment, and hospitality for guest speakers.

Networking Events: Organize/managing networking events, visits, and informal gatherings to facilitate interactions between students and industry guests.

Budgetary Allocation:

A portion of the institute's budget allocated to visiting faculty/expert will be used for guest lectures and industry interaction activities:

Honorarium: Allocate funds to compensate guest speakers and industry experts for their valuable time and insights.

Travel and Accommodation: Provide resources for covering travel expenses and accommodation for speakers traveling from afar.

Event Management: Budget for organizing events, workshops, and seminars, including promotional materials and refreshments.
