Tolani Motwane Institute of Management Studies

Research Support Policy

Research is the cornerstone of progress, and our Research Support Policy underscores our commitment to fostering academic research and innovation. This policy outlines a framework for providing faculty members with the resources and infrastructure required to conduct research, paving the way for contributions to the field of management.

Objectives:

The Research Support Policy of institute is designed to achieve the following key objectives:

Research Excellence: Foster a culture of research excellence among faculty members and researchers, enhancing the institute's academic standing.

Knowledge Creation: Encourage the generation of new knowledge, theories, and insights in various management disciplines.

Industry Impact: Facilitate research that addresses practical industry challenges, fostering meaningful engagement between academia and business sectors.

Scope:

The Research Support Policy encompasses a wide range of research activities, case studies, simulations, and projects across management disciplines. This includes, but is not limited to:

Basic Research: Exploratory studies aimed at advancing theoretical foundations and understanding in management.

Applied Research: Research that addresses specific business challenges and offers practical solutions. Innovative practices at business and academics can be explored.

Multidisciplinary Research: Collaborative efforts that bring together expertise from multiple disciplines to tackle complex issues.

Eligibility:

All full-time faculty members and researchers at the institute are eligible to seek research support.

Institutional Support:

The institute is committed to provide support to facilitate research & innovation endeavours:

Research Funding: Allocate financial resources to support research for publication, conferences, FDPs, and relevant activities. To foster innovation, financial support will be given adhering to budgetary allocation.

Research Facilities: Provide access to facilities, databases, and research tools necessary for conducting quality research.

Research Collaboration: Encourage collaborations within the institute and with external partners, fostering a diverse range of research perspectives.

Research Ethics: Provide guidance on ethical research practices and ensure compliance with ethical standards in all research activities.

Budgetary Allocation:

A designated portion of the institute's budget will be allocated for research support and innovation.
